Hand Gesture-Based Drawing App

Features

Feature	Left hand	Right Hand
Draw	…|	|...
Pick new color	||||	||..
Clear window	|...	
Drag	..||	|...
Zoom in	.|||	|...
Zoom out	.|||	||..

Left hand is for selecting action (Draw, new color, zoom, …)

Right hand is for doing that action

What I Learned

- First time using ML library/model that i didn't created myself.
- Learned how to work with hand gestures
- Learned how to work with camera in real time
- Remembered computer graphics (zoom transformation)
